

Amir Younesi

SENIOR FRONTEND DEVELOPER

Richmond Hill, ON | +1 647-879-1229 | amiryh.dev@gmail.com | linkedin.com/in/amyough

PROFESSIONAL SUMMARY

Frontend developer with 9+ years of experience building high-traffic web applications, SaaS products, booking platforms, and cross-platform interfaces. Strong expertise in React, Next.js, Vue, Nuxt, JavaScript, TypeScript, and modern frontend architecture, with practical backend experience in Node.js and Laravel. Proven record of improving performance, reducing operational workload, and delivering complex products including a Canva-like design editor, SVG editing tools, travel-booking systems, and mobile applications. Experienced in performance optimization, API integration, cloud storage, responsive design, testing, and collaboration with product and UI/UX teams.

CORE SKILLS

Frontend: JavaScript, TypeScript, React, Next.js, React Native, Expo, Vue, Nuxt, HTML5, CSS3, Tailwind CSS, NativeWind, Bootstrap, Vuetify

Backend & Data: Node.js, Express.js, Laravel, PHP, REST APIs, MongoDB, Mongoose, MySQL, NoSQL, NextAuth

Tools & Architecture: Git, Redux Toolkit, RTK Query, SPA, PWA, Electron, Cloud Object Storage, AWS S3, CloudFront, caching, queues, unit testing, responsive design

SELECTED PROJECT

Founder & Full-Stack Developer | UpHub | Greater Toronto Area

2024 - Present

- Designing and developing a bilingual React Native and Expo mobile platform for discovering local businesses, promotions, events, and community services across the GTA.
- Built phone-based OTP authentication, role-based user flows, onboarding, business profiles, working hours, service management, maps, and cloud-based media uploads.
- Developed the backend with Next.js, MongoDB/Mongoose, NextAuth, Zod, AWS S3, and CloudFront, using secure token handling and scalable API patterns.

PROFESSIONAL EXPERIENCE

Frontend Developer | Editools | Iran

Oct 2020 - Sep 2023

- Built a browser-based graphic design editor comparable to Canva using React, Next.js, and Node.js.
- Improved initial loading performance by approximately 3x through prioritization, categorization, lazy loading, and caching of editor assets.
- Developed an embedded SVG editor that enabled users to modify vector graphics directly inside the design platform.
- Integrated cloud object storage for more than 2 million images, SVG files, fonts, and templates.
- Partnered with UI/UX designers to implement responsive, accessible, and user-friendly interfaces, and introduced automated testing to improve reliability.

Full-Stack Developer | Mosaferan Aseman Hashtom Travel Agency | Iran

Sep 2014 - Sep 2020

- Developed and maintained a booking platform for flights, hotels, buses, and travel insurance using Laravel and Vue.js.
- Reduced support workload by approximately 70% by automating ticket issuance with Laravel Queue and related workflow improvements.
- Reduced external REST API usage and associated costs by approximately 20% through a structured caching layer.
- Created REST APIs for the Vue.js SPA and additional client applications across multiple platforms.
- Built affiliate and customer scoring features that supported sales growth and expansion into the B2B market.
- Implemented an online refund workflow that reduced paperwork by approximately 75% and lowered support and accounting workload.

Frontend Developer | Aftab Saheli Toos Travel Agency | Iran

Jul 2010 - Aug 2014

- Helped develop an early online airline-ticket sales website and application using JavaScript, PHP, and Laravel.
- Integrated online flight booking through REST APIs, contributing to an approximately 200% increase in sales.
- Implemented an online support system and optimized page performance, responsive layouts, and cross-device compatibility.

ADDITIONAL CANADIAN EXPERIENCE

Security / Field Technician | Synergy Protection Group Inc. | Ontario, Canada

Feb 2025 - Aug 2025

- Installed, inspected, and supported security camera and NVR systems, including Hikvision equipment, while completing field documentation and coordinating with site teams.
- Applied troubleshooting, customer communication, and hands-on technical skills in active commercial environments.

EDUCATION

Software Engineering Technology - Artificial Intelligence (Fast-Track) | Centennial College, Toronto, ON

Sep 2026 - Present (In progress)

English for Academic Purposes | Centennial College, Toronto, ON

Bachelor's Degree in Computer Software | SAMA Technical and Vocational College, Quchan, Iran

LANGUAGES

Persian (Native) | English (Professional working proficiency)
